

I am a subscriber of Satellite Radio - I want to offer my support to them and asking you the FCC to reject NAB's petition 04-160 to stop Satellite Radio from being able to offer instant traffic and weather. I pay for this service and it is very beneficial. I don't have time to wait for commercial radio to play music, talk blah blah blah to get a very limited report of traffic - which can be crucial living in a Major Metropolitan area with all of the construction, wrecks, etc that occur on a daily basis. Please reject this proposal.
